

SOUTH OTTAWA LITTLE LEAGUE – JANUARY 2011

Starting in the northwest corner, the boundary is described in a counter-clockwise direction, as:

1. From the point where the Rideau River intersects with Highway 417, the western boundary extends south along the Rideau River to the southernmost point to Rideau Road which is extended to the Rideau River.
2. The southern border extends east along Rideau Road, taking a short jog north along Ramseyville Road. It then continues east along the 9th Line Road to the point where it intersects with Highway 417.
3. The eastern and northern boundary extends north along Highway 417 to the point where it intersects with the Rideau River.

Boundaries defined by roads should be interpreted such that SOLL membership eligibility includes families resident on both sides of the road, to avoid the unnecessary separation of players who are neighbours and friends.
